

July 13, 2006

As part of our effort to continuously improve our service, Selective Screening Services will be upgrading it's website on August 1st, 2006.

New Functionality

- **Manage Documents**-In addition to the denial letter which we have always provided you will now be able to upload or create new documents. These documents are then auto-populated with your applicants' and your information when accessed from the View Reports page
- **User Administration**-You can change your password online, add additional users to your account and manage their user privileges.
- **Additional Fields**-You can now track additional data on your applicants including rent, income (which will add a rent/income ratio on your report), and 4 optional fields to use as you please.
- **Management Reports**- You can now run management reports (either "Screening Analysis & Demographics" or "Optional Fields" report) for any month, quarter, or user selected date span. The Screening Analysis & Demographics report provides information on number of reports run per month, average applicant age, age distribution, and top 10 most used zip codes. The Optional Fields report provides average rent, income distribution, and distribution information on the optional fields if they have been used.

Additional Data

- **More Criminal Records**-Selective Screening Services has increased it's criminal records database from 170 million criminal records to over 250 million criminal records making it the most complete criminal records database available.
- **Now with Pictures**-Sexual offender records will now be returned with pictures of the the offenders.

Additional Services

- **OFAC/Terrorist**-With this search you can check to see if an individual is on the government's watch list of potential terrorists, drug traffickers, etc.
- **Social Security Number Verification**-Verifies validity of social security number, whether it is associated with a deceased person, and provides state and year o issuance. Also, provides DOB where possible.

Current customers who have questions and anyone interested in opening an account with us should contact our office at 630-738-8738.
